Andrew Busey is a Consultant who works with industry stakeholders, regulatory agencies, and other groups to analyze energy and environmental matters, as well as economic impact assessments, in NERA's Environmental Economics Practice. Mr. Busey believes sound, rigorous econometric analyses are key to the development of socially efficient regulation. He has participated in benefit and cost assessments for numerous nuclear and fossil electric power plants under Section 316(b) of the Clean Water Act. Much of his recent work has also considered the macroeconomic impacts of regulations, projects, and investments, incorporating important complications such as dynamic impacts and spillover effects.

Education

BS in Mathematics and BA in Economics, University of North Carolina, Chapel Hill

Practice Areas

Environmental Economics

About NERA

NERA Economic Consulting (www.nera.com) is a global firm of experts dedicated to applying economic, finance, and quantitative principles to complex business and legal challenges. For over half a century, NERA's economists have been creating strategies, studies, reports, expert testimony, and policy recommendations for government authorities and the world's leading law firms and corporations. With its main office in New York City, NERA serves clients from more than 25 offices across North America, Europe, and Asia Pacific.
