Bharat Ramkrishnan is a Consultant in NERA's Energy and Environmental Economics Practices. He has extensive experience modeling the economic impacts of national and regional environmental regulations in the US and has worked with electric and gas utilities, trade associations, and policymakers on energy and environmental issues. He has analyzed the implementation of regional and economy-wide regulatory measures and carbon taxes on the use of fossil fuels. He has also conducted integrated assessments on health impacts from changes in air quality standards and prospective cohort-based health risk simulation analyses. Mr. Ramkrishnan has supported clients in the design of electricity rates associated with the deployment of different levels of electric vehicle penetration in the US, evaluating the air quality benefits associated with the tightening of nitrogen oxide (NOx) exhaust emission standards for heavy-duty highway vehicles and assessing the likelihood of different levels of US liquefied natural gas exports and the associated impact on natural gas markets and the economy.

Education

MSc in energy science, technology, and policy, Carnegie Mellon University

MSc in chemical engineering, National University of Singapore

BEng in chemical engineering, R. V. College of Engineering, Bangalore

Publications

- *Impacts of Greenhouse Gas Regulations on the Industrial Sector*
- *Economic Impacts of Major California Climate Change Goals*

Practice Areas

Energy

Environmental Economics

About NERA

NERA Economic Consulting (www.nera.com) is a global firm of experts dedicated to applying economic, finance, and quantitative principles to complex business and legal challenges. For over half a century, NERA's economists have been creating strategies, studies, reports, expert testimony, and policy recommendations for government authorities and the world's leading law firms and corporations. With its main office in New York City, NERA serves clients from more than 25 offices across North America, Europe, and Asia Pacific.
