Dr. Mrozek is a Senior Consultant in NERA's Energy, Environment, Communications & Infrastructure Practice. His expertise focuses on the analysis of regulations, markets, and competitive environments in telecommunications, media, and internet markets, as well as analysis in support of antitrust and regulatory cases. His litigation, merger clearance, and business consulting has spanned a range of industries and sectors, including telecommunications, internet, media, transportation, computer hardware, energy, industrial products and services, consumer products and services, and financial services.

Recent and notable casework has included evaluating market dynamics and implications for regulations in telecommunications; evaluating competition and pricing in an internet product market; supporting counsel in responding to a lengthy investigation of pricing practices in the IT industry; analyzing competition, new competitor entry, and trade patterns in support of a chemical company acquisition; analyzing energy price changes at the wholesale and retail levels; and testifying on behalf of defendants in a market manipulation case involving the wastepaper industry.

Dr. Mrozek's research has been published in a number of refereed journals, including the *Journal of Policy Analysis and Management* and *Environmental and Resource Economics*. He received his PhD in economics from Stanford University.
