Gaurav Ganguly is a Consultant in NERA's Antitrust and Competition Practice and is based in New York City. He applies microeconomic theory and statistical and econometric analysis to model firm behavior and market outcomes.

Mr. Ganguly has experience evaluating the competitive effects of mergers and acquisitions across a wide range of industries, including consumer products, retail, oil and gas, technology, and casino gaming. He is also proficient in various programming languages, including Stata, SAS, and SQL, and has experience utilizing ArcGIS mapping software in conjunction with Python to help clients understand geospatial competition in their relevant industries.

Education

MA in economics, New York University
BA in economics, Franklin & Marshall College

Practice Areas

Antitrust and Competition

Languages

Hindi, Bengali, English

About NERA

NERA Economic Consulting (www.nera.com) is a global firm of experts dedicated to applying economic, finance, and quantitative principles to complex business and legal challenges. For over half a century, NERA's economists have been creating strategies, studies, reports, expert testimony, and policy recommendations for government authorities and the world's leading law firms and corporations. With its main office in New York City, NERA serves clients from more than 25 offices across North America, Europe, and Asia Pacific.
