Ibrahim Ouf works with regulators, industry-leading companies, and governments to provide rigorous economic analysis across the energy industry, including for utilities, oil and gas, and energy companies. He advises clients on their strategic and operational goals using trusted financial, strategic, and public policy analysis.

Mr. Ouf has provided economic damages analyses to utilities and natural gas companies across North America. He has worked with several investor-owned utilities in supporting regulatory rate cases against state and federal energy regulatory commissions. Mr. Ouf’s approach emphasizes an understanding of market dynamics and potential industry developments while prioritizing open, honest communication with his clients to ensure mutual fit and a successful engagement.

Prior to joining NERA, Mr. Ouf worked as a consultant at a large management consulting firm, supporting clients on transformation programs, strategy development, and the assessment of financial business plans. His experience provides a deep understanding of the industry landscape in a range of sectors, including retail, banking, IT, aviation, education, healthcare, and transportation.
