London: +44 (20) 7659 8500

Joel Davis is an energy and climate change economist. Mr. Davis supports his clients in matters including carbon pricing, nuclear, coal and gas regeneration, energy security, electricity networks, climate change, competition issues, and infrastructure analysis.

Prior to joining NERA, Mr. Davis worked at the Department for Business, Energy, and Industrial Strategy (BEIS) advising on a range of carbon pricing issues and policies, which led to the creation of the UK Emissions Trading Scheme. He has provided analytical evidence on energy policies to influence crucial features of multi-billion-dollar programs such as new nuclear and the creation of the UK Capacity Market. He has also provided advice on a range of issues and applied his detailed knowledge of energy economics, regulated monopolies, pricing controls, and competition economics.

Education

MSc in financial and industrial economics, Royal Holloway, University of London

BSc in economics, Royal Holloway, University of London

Practice Areas

Energy

Environmental Economics

Languages

English, Turkish

About NERA

NERA Economic Consulting (www.nera.com) is a global firm of experts dedicated to applying economic, finance, and quantitative principles to complex business and legal challenges. For over half a century, NERA's economists have been creating strategies, studies, reports, expert testimony, and policy recommendations for government authorities and the world's leading law firms and corporations. With its main office in New York City, NERA serves clients from more than 25 offices across North America, Europe, and Asia Pacific.
