Juliette Ansart is a Senior Consultant in NERA's Global Transfer Pricing Practice, based in Paris. She specializes in valuation issues of intra-group transactions with a focus on tangible and intangible property, as well as financial transactions.

Her work concentrates on the design and implementation of economic and financial models for strategic, regulatory, and tax purposes. Her experience is widespread across the fashion, retail, and luxury goods industries, but also includes the energy, technology, and food service sectors.

In particular, Ms. Ansart has significant experience in the preparation of documentation reports to defend taxpayers in the course of tax audits and for compliance purposes. Furthermore, she has been involved in projects related to the valuation of technology, technical know-how, and brands at multinational companies as part of the design of intra-group pricing systems or in the event of business restructurings. She has also worked for major multinationals to assist them with intangible valuation and to review the transfer pricing policies associated with manufacturing, supply chain, and distribution functions.
