Los Angeles: +1 213 346 3031

Katie Orlandi works with utilities, governments, regulatory agencies, ISOs, and corporations on matters related to power, capacity, and renewable energy markets and auctions in NERA's Energy and Auctions Practices. She is an expert in the design and implementation of auctions and competitive bidding processes for products including wholesale power and capacity. She also uses this expertise to meet wide-ranging renewable energy procurement goals and policy objectives for her clients. Her work has had a direct impact on the development and expansion of renewable energy markets and opportunities. She has testified before a state regulatory commission.

Ms. Orlandi's experience includes developing detailed rules and eligibility requirements, contract development and negotiation, designing online qualification and bidding processes for efficient implementation, valuing power contracts and renewable generation assets, and bid evaluation.

Ms. Orlandi also has significant experience working on marginal cost studies and has developed models used in a wide range of applications, including tariff design and evaluating the economics of demand-side initiatives.

Education

MA in economics, Boston University

BA in economics, Boston University

Practice Areas

Auctions

Energy

About NERA

NERA Economic Consulting (www.nera.com) is a global firm of experts dedicated to applying economic, finance, and quantitative principles to complex business and legal challenges. For over half a century, NERA's economists have been creating strategies, studies, reports, expert testimony, and policy recommendations for government authorities and the world's leading law firms and corporations. With its main office in New York City, NERA serves clients from more than 25 offices across North America, Europe, and Asia Pacific.
