Kaushal Vaddiraj is a trusted economist who specializes in analyzing the competitive effects of proposed M&A transactions and evaluating damages in antitrust litigation. His experience spans several industries and antitrust areas including digital platforms, health care, construction, aviation, and petrochemicals.

Mr. Vaddiraj analyzes damages involving price fixing, bid rigging, and abuse of market dominance for antitrust matters. He also provides litigation and arbitration support by working with large, complex datasets for statistical and econometric analysis and assisting clients on data requests and responses to plaintiffs and regulatory agencies.
